

# Jazz Works ... Pass it On!

A series of free clinics where students can learn the art of jazz improvisation

Presented  
by:

## Theory

Each session includes an hour of formal instruction covering some of the basics of music theory that are fundamental to jazz improvisation. Students will learn to identify common patterns in jazz music, scales and modes, common chord progressions and rhythmic elements of jazz styles.

Knowledge of these fundamentals removes the mystery of improvisation, enabling any musician to develop improvisational skills.

## Practice

Each session includes an hour of structured practice in a traditional "jam session" format.

This allows students to immediately apply the knowledge learned during the formal instruction and to receive feedback and suggestions from experienced jazz performers serving as mentors.

## Details

All sessions are tuition free.

All students from any school district (or home schooled) are welcome. Students should have at least 18 months experience on their instrument.

Students should bring their own instruments. All other materials are provided.

All sessions are held at Arsenal Technical HS starting at 10:00 AM, ending at noon. See map on reverse side. Please plan to be ready to play at 10:00 AM.

## Schedule

**Sat. Nov 15, 2008**

**Sat. Dec 06, 2008**

**Sat. Jan 24, 2009**

**Sat. Feb 21, 2009**

**Sat. Mar 21, 2009**
